WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regard the benefit of this article over the clear oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"This disease was one of unmixed phthisic which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

CAUTION.—On account of the great reputation of this Compound for all Lung Complaints, the subscribers would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the pure Oil with lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world. It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast. To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints; Chronic Diarrhœa, and Dysentery, in all of which cases it should be used incessantly. The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Cramped Hands, Bruises, Burns, and all descriptions of wounds, are magical. Persons troubled with Pains in the Stomach, Side, or Bowels, Sore Throat, Piles, &c., by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure. The proprietor can produce volumes of testimonials in its favor, but prefers to let it exhibit its own recommendations, as it has done for forty years past. We ask no man to use it after an unsatisfactory trial. In its composition it unites several of the most penetrating and healing specifics known to the materia medica.—The inventor of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of years with a distressing cough and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was induced to purchase of the late Joseph Merry, then of this town, a bottle of Johnson's Anodyne Liniment, and by using three bottles, my leg was unbended, and strength cured, and for a number of years have been a stranger to what it was as well as he other. I consider myself indebted to the use of your Liniment, next to the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it, and no doubt you will be cured.

PERRY'S HUNGARIAN BALM.

FOR RESTORING, PRESERVING AND BEAUTIFYING

THE HAIR.

THIS elegant preparation is an effectual remedy for Baldness and Falling Off of the Hair. It prevents and completely eradicates Scurf and Dandruff, strengthens the roots of the Hair; causes it to grow luxuriantly; gives it a Rich, Dark, Soft and Glossy appearance, and prevents it turning Gray. The Hungarian Balm is a purely Vegetable compound, scientifically and chemically combined, and is warranted to contain none of those deleterious ingredients which prove so injurious to the Hair. It acts directly upon the Skin, cleansing and purifying it from all unhealthy secretions, thereby removing and preventing the accumulations of Scurf, Dandruff, and other impurities which so frequently cause premature decay and loss of the Hair.

The Hungarian Balm is especially adapted to Ladies' use; and those who have tried the various cheap substitutes, with no benefit, will at once discover the agreeable and beneficial effects produced by this pure and delicate preparation—instead of irritating and Tanning the Hair, (which is more or less pulled out in the process of combing) it leaves it free and clean; promotes a natural moisture, and imparts a beautiful dark and glossy appearance. Try it once, and you will be convinced of its superiority *over all other Compounds for the Hair*.

Much more might be said in favor of this invaluable Compound, but it is deemed unnecessary as the proprietor feels confident that ONE TRIAL will convince the most incredulous of its rare and manifold virtues. Therefore,

If you have lost your hair and wish to restore it.

If you are losing your hair and wish to preserve it.

If you are troubled with Dandruff and wish to remove it.

If you have any Humor of the Scalp and wish to cure it.

If you are troubled with Nervous Headache and wish to cure it.

If you have any Hair eradicated at the Roots of the hair, and wish to destroy them.

If you have harsh, Dry, and Wiry Hair, and wish it to become Soft, Pliable and Beautiful as Silk; and if you wish to preserve Rich, Graceful, and Luxuriant Tresses to the latest period of life,

Use Perry's Hungarian Balm!

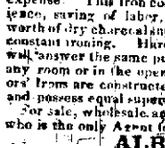
PATENT SELF HEATING

SMOOTHING IRON!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

WHIG NOMINATION.

FOR GOVERNOR

WILLIAM G. CROSBY.

EVASION OF THE MAINE LAW.

Various are the subterfuges resorted to by money making people—without hesitating as to the means—to evade the enactment of those legislature which is entering into the politics of so many of the States One which is the subject of much discussion among our citizens, is that by which notorious rum traffickers are made the keepers of Government's bonded warehouses for the storage of liquors. These traffickers are permitted to make their own selection of buildings for the purpose and are hardly to select such as are conveniently adjacent to their own shops. The consequence of such an arrangement can be easily comprehended. The Government agent can fill the Custom Houses' with all kinds of liquors, and dispose of them with little fear of interruption by State officials. At least this is said to have been the case in a certain Custom House not a thousand miles from Bangor, and that the officers are in a fair way of making their fortunes by the arrangement. Whether there may not be some way contrived to reach this kind of offenders remains to be seen. There are as keen intellects on the side of the law makers as of the law breakers. One thing, however, is certain, that a Collector who lends his aid in thus evading a law, *will be likely to be remembered, until well forgotten by the people.*

Another form of evasion has its origin in the fertile brain of some rum loving Boston lawyer's head, after the law had been enacted in Massachusetts. This has been imported into this State, and is about to receive the sanction or disapproval of the highest expounders of the law.

A case from Washington county, was argued in the Supreme Court last week at great length, and with much ability.

The case is this: A person brought to Calais by water, from Boston, a large quantity of liquors Before reaching his destination, learning the Revenue officers and the authorities of Calais were on the look out for his contraband wares, to cause a connection of his living in St. Stephen, to commence a suit against him upon a note of $1200. The note is called a sham note, but no matter—the holder of the note causes the liquors to be attached upon the writ. On the arrival of the vessel, the Marshal is on the wharf with his warrant and undertakes to seize the liquors. He is resisted The Sheriff who has attached them on the writ refuses them to a draysman, who conveys them to his house and stores them in the basement. The mayor then, with a Marshal at hand, proceeds to the place of deposit, breaks the door of the basement, and removes the liquors,—notwithstanding the drayman presents himself armed with revolvers, and threatens the annihilation of the army—who's are all thus summarily condemned and destroyed.

The sheriff brings his suit against the Marshal for their seizure, and undertakes to establish himself on the ground that the liquors being in the custody of the Sheriff under a civil process, cannot be taken from his possession under a criminal process. One point in the defence is, that the liquors being a species of property not capable of being sold on execution except in violation of law, are not subject to attachment.

The case is *James Nichols vs. Samuel W. Prince*, and was argued by Chase for plaintiff, and Granger for defendant. The case is one of great interest in Washington county.

RELIGIOUS SUMMARY.

He visited a congregation of some 2500—found in possession of the Bible printed in Coptic and Arabic in parallel columns. They have a form of Liturgy in the same languages, have pictures of the Virgin Mary in the churches—their way to God through Christ." "I do not," he adds, "that there are sincere Christian among them. As a body they have fallen into a formal christianity, and they need sincere discriminating and practical views of the gospel. They are simple hearted and ready to listen to the truth."

Bostonians in Bangor.

A correspondent of the Boston Journal writing from Bangor under date of July 18, thus remarks:

This Eastern city is one of great resort. A large number of Boston gentlemen and ladies are here, some quite distinguished men, and some of our most beautiful and accomplished ladies. The climate of Bangor is so fine, the excursion so desirable this sultry weather, its scenery and prospect so beautiful, and the facilities or travel so varied and comfortable that great inducements are held out to seekers of health and pleasure to visit the East."

We are glad to learn that there is so large a number of our Boston friends here permanently of the "beautiful and accomplished," and believe there are accomodations for more We have no doubt that some gentlemen we won't, among our own citizens, rich and "distinguished," would if they could have the opportunity, extend an invitation to some of them to make their residence among us permanent.

☞ We are requested by one of the building Committee of the Unitarian Church, to say, that there will not be a Concert by Clark's Band, in said church, this evening, as announced in our paper yesterday.

NEW DAILY IN PORTLAND. Messrs May & Merrill have issued a prospectus of of a daily commercial and literary newspaper to be published in Portland, and called the State of Maine.

☞ Next week, Monday, Tuesday and Wednesday, Mr. Scribner will admit more pupils to his classes at No. 2 Harlow s Block We understand that one hundred ladies and gentlemen, masters and misses are now under his tuition, getting the foundation for an elegant business and penmanship, which will be a handsome fortune in after years.

COULDN'T BE CHOKED OFF.—The Clinton Courant tells a story of a rural philosopher, who had sense, but advanced in years without learning much of the mysteries of nature.—What knowledge the old gentleman had gleaned was entirely independent of science. He did not know whether a microscope was "some thing to eat, or a new fangled farming machine." A young friend, fresh from school, once paid him a visit, and was very anxious to enlighten the old man on the wonders of the microscope, a specimen of which he carried about him While the old philosopher was making a frugal meal in the field at noon, the youth produced his microscope, and explained its operation, which he illustrated by exhibiting its power upon several bugs and divers minute atoms of animate matter at hand So he surprise, the aged pupil did not manifest much astonishment, and, stung by his indifference, he detailed to him how many scores of living creatures he devoured at every mouthful and in each drop which quenched his thirst.—At this he peered was sceptical, to prove the fact, the boy snatched from his hand a chunk of rich cheese which he was then devouring, and placing under the magnific, the mass of wriggling animalcule was triumphantly pointed at. The old man gazed upon the sight in different, and at length with the utmost non chalance, took another bite of cheese "Don't, exclaimed the boy "don't eat Uncle Ben, don't you see em; See em squirm and wriggle!" "*Let 'em wriggle*" said the old philosopher munching away calmly, *they've got the short eat, and they kin stake it, I'm,* and he deliberately finished his meal

COST OF A PASSENGER CAR The cost of one of the long passenger cars is, on an average, about two thousand dollars These are in the United States upwards of eight private car manufactories, exclusive of those railways which manufacture and repair cars for their own use and it is calculated that a capital of six thousand dollars is invested in this branch of industry, producing about seventeen million dollars annually, and employing about six thousand men.

Among Carriage Makers,

THE subscribers have purchased the right to make, use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis Waldo, Hancock Washington and Aroostook The advantages of the above Coupling over the old method of connecting the main part of the Carriage with the front part is such that it must come into general use when it is properly understood High forward wheels can be used and we get rid of the dashing irons, as the wheels do not strike the body and the carriage turns in a very small compass the hind wheels not describing more than 4 to 5 feet circle It is perfectly simple, and not so liable to get out of order as the old method Those who have used the above are fully satisfied of its utility as certificates below show It can be attached to old carriages at a small expense, and we are prepared to sell the right for shops, towns, and would sell a part of the above named Counties, at such a rate that any smart man with a small capital could realize a great profit on the sale of the same. The best Pills in the World.

HARDY'S FAMILY VEGETABLE CATHARTIC PILLS are the best that can be found in any country for Jaundice, and all Bilious trouble, Dyspepsia, Colds, Rheumatism, and every complaint in which the stomach or bowels need evacuation or regulating. Yankees have boasted their unequalled skill and talent for every thing that can be done, but can devise no medicines, or cures; why then, turn with admiring and confiding eyes towards every new medicine, with a foreign name? Yankees can, and do, beat all creation in every thing they attempt. Then discard your Mixtures, Kongaroo, Ichneumon, Hyena, and all other such heathenish medicines, and call at Hardy's, No 3 Harlow's Block, where you will find, not on the best Pills, but the best Medicines in existence for all the ills that flesh is heir to," (except beer pockets) and the best Rum and Ox Medicines made.
